CLEAR COMPLEXION

Ruddy cheeks—sparkling eyes—most women can have. Dr. F. M. Edwards for 20 years treated scores of women for liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, head-aches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—now and then—to keep fit. 15c, 30c and 60c.

Inquest on Six Deaths to **Be Resumed Wednesday**

(Picture on back page.) The deaths that claimed six babies ten infants instead of distilled water the removal from the hospital of the last of those poisoned. Marjorie Elizabons, 13 days old, for whose life all hope had been abandoned, was ufficiently recovered to go home with her 19 year old mother, Eva Gibbons, of 5859 Roscoe street.

This cleared the hospital's obstetrical ward of all those who were mistakenly given the acid solution a week ago Saturday night by a student nurse, Miss Margaret Cuff, who laid her mis-take to the fact that she had not been informed of a change in hospital rules that forbade the further use of a kettle in boiling drinking water.

Dr. Allen H. Ferguson, who attended ns baby, had fought night and day for nearly a week to save het

Resume Inquest Wednesday.

Meanwhile preparations were going forward to continue the inquest on Wednesday into the death of Baby Galitz, the first of the six who died. The verdict of this inquest will be applie' to all six cases if the findings of Dr. W. D. McNally, coroner's chemist who is analyzing the contents of the habies' stomachs, show that all died of the same poison.

The inquest, which was started last Thursday, extended on Friday and thee cortinued until next Wednesday, has brought to light that the boric acid solution was given ten babies in place of drinking water; that the original death record of Baby Galitz disappeared and was replaced by another written from dictation; and that steps have been taken to make such a mistake impossible of repetition, not only in Columbus hospital, but in others, where the rule of placing labels on Formerly of Lewy Bros Co. tainers will be strictly enforced.

Lull in Official Dispute. The quarrel between the health de partment and the coroner's office, brought on by charges made against Health Commissioner Herman N. Bundesen who first uncovered the poisoning of the babies which had been mistaken for an epidemic of intestinal influenza, was also at a lull yesterday. It is expected that hostilities may be resumed on Wednesday, when, according to promises made Saturday, Coroner Oscar W. Wolff will call Dr. Bundesen to 'he stand at the inquest.

Discussing possibilities of concluding peace, the general expressed approval of the idea of American intervention in Nicaragua, with a military governor ousting both the rival presidents, Diaz and Sacasa. The United States should guarantee early and fair elections, full amnesty, full payment of claims and fair party representation in case the warfare should be terminated. The peace proposals should be submitted through the United States legation, as the liberals are not willing to deal with Diaz.

Vogue Patterns Cost a Few Cents More

The Difference Is Style Insurance

70GUE PATTERNS are not made by the million, for the million. They are made only for those women in each community who wish to dress in the metropolitan manner. These women are not interested

in adaptations. They are satisfied only with clothes cut and fitted as Paris cuts and fits at the moment. Till they use a Vogue Pattern, such women never realize that any pattern exists which can meet their exigent demands.

Style Authority

Vogue Patterns are Paris-in-tissue-paper. Almost as soon as a new mode appears, Vogue cuts it and has it ready for you in your own city. All Vogue's fashion experience, all Vogue's critical taste, go into choosing the models—they are chic itself.

Smartness of Line

The cut of Vogue Patterns is entirely different. In a 36-size Vogue Pattern, for instance, every line is right for the perfect figure. Fitting is necessary only where the individual contour differs from the ideal.

Accuracy of Construction

Each Vogue Pattern is made up, tried on, criticised before manufacture by Vogue's editorial staff. The exact position of every seam, dart, joining and trimming is examined individually. If you follow directions, you cannot go wrong.

Simplicity of Use

Vogue Patterns make sewing easy. Designs are never over-elaborate, simplicity being the soul of chic. The clear marking, the cutting charts, the fitting diagrams, provide complete directions. All fine points are cared for, so work goes fast.

Old Patterns Retired Quickly

The moment a mode is passe, Vogue calls in the patterns. It is impossible to buy anywhere a no-longer-smart Vogue Pattern.

All this costs Vogue money. It would be possible for Vogue to compromise with the mode and sell, not thousands of patterns, but millions—making for less, selling for less. In such a compromise, however, Vogue's special clientele would be sacrificed; this Vogue would never do.

Two Principles

↑LEXANDER GRAHAM A BELL discovered an electrical principle upon which a great communications art has been founded.

Those who undertook to give practical value to his discovery likewise left to their successors a principle of service, that has been developed into an intercommunicating system of over 17,000,000 telephones.

Both of these principles were built upon and developed with the same objective, -that of enabling men to talk one to another easily, conveniently, cheaply. With nation-wide telephone service already an accomplished fact, these principles still continue to act and react upon each other, producing new ideals of service, new goals toward which to strive.

If on that day of Leland's going, Dulcle suffered unrighteously, unsuitably, yet her pain ran into Cornella's heart with the flowing of those tears and flowered there into courage. "O, my dear!" she breathed. "My poor child!" And she put her hand on the sable sleeve.

At the touch Dulcie's whole being seemed to gather like a wave toward one great sob. She caught it back, but her body shook; her hands gave a stiff, almless little flap, seeking and empty, and fell dead into her lap. Breath after breath shuddered with the struggles of that still stilled sob. And "Don't cry!" Cornelia besought her, with the senseless, age-old exhortation of help-lessness. "Darling, don't cry!" For though the tears of the beloved may rage, eloquence, alas, is the last thing they give.

She lay and clung there, burrowing close, like a broken-hearted child, frightened but stormy, till Cornelia was shaken by the gasping, shivering tempest of her sobs. So when Cornelia bent her head to whisper, "O, poor ittle girl! My dear little girl!" her own cheek, faded with the colorlessness so many years, found itself nested in a bright cloud, silken and crimply, years, found itself nested in a bright cloud, silken and crimply, on her shoulders, meager with the clutch of care alone, the wild trially careless fingers claimed her absorbingly for youth and fired dear child! Good Morning!

Italy is at war with Austria, and the beautiful Countess Mariana awaits in fact, are to be commended. The pictone does for them. One beautiful Countess Mariana awaits in her stately castle the return of her soldier husband from the battiefield. As she waits the Austrians possess her she waits the Austrians possess her waits the Austrians possess her waits the hall and stage would accommodate the pictory one does for them. One can manage them better. One doesn't have to spend on them the last cent one has, and that gives enspayed to as many musical pilgrims as point. As drama, "Night-Hawk" is sheer ham. Blame for Bad Plays Put Partly on Church

New York, March 6.-(P) - The churches are held partly to blame for conditions on the stage in an outline today by the Church and Drama association of its plan for improving the tone of stage productions in New York. The Rev. George Reid Andrews, director of the association, said: "It is not enough to condemn bad

Sousa is going into—or, rather, with—the movies: he is to devote six weeks, at least, to the Paramount houses, starting in New-York late this month, and arriving May 2 for a week in the Chicago Theater. Miss Peggy Wood is to take over Miss Pauline Lord's role, that of Imogen Parrott, when the latter leaves the cast of "Trelawney of the Wells." . . Miss Ruth Chatterton was mentioned for the part the other day; and a later guess as to Miss Lord's successor was Miss Margaret Anglin.

Word from New-York is that the Orpheum-Keith entente hopes to solve some of its problems by operating two parallel circuits of theaters across the country. One circuit is to be devoted to the two-a-day; but the capacity of these theaters will average 1,500 seats — a capacity regarded as "intimate" in 'the economics of the varieties. Seats in these houses will be reservable. The other circuit is to consist of larger theaters, wherein the programs will be of "acts" and movies, run off either "continuously" or on a three-a-day schedule, with prices ap-

young things are going in for careers.
Each time word gets about that one of them is doing something a few skeptical souls murmur, "Yes, that's all very well, but how long will she keep it up?" And, surprisingly enough, most of them stick at it, and successfully, too, at least until they decide to go in for matrimony.

Take, for instance, those two attractive young women, Pegsy Hambleton and Sarah Hinde. Some months ago they enrolled at the Goodman theater, and despite the distractions of the winter, they refused to yield to the temptation of alluring invitations that would n of alluring invitations that would terfere with their work.

And they are still to be seen every day at lunch time, skipping across the street from the Art institute for a bite—an extra half hour or so in the middle of the day [a gift direct from the gods, when they get it] means only that they can hurry up to the woman's exchange to meet one or an's exchange to meet one or her of their confrères for a brief

Deep Tucks Give Weight to Chiffon Frocks,\$65

IN the wide scallops extending from shoulder to the very smart tight hipline lies much of the grace of this very becoming crepe chiffon frock for women. It has a tailored air so desirable for daytime. In cocoa over rose, flesh-color over white, black over beige and navy blue over beige. Sketched at the center.

The "Bow-on-Collar" Coat, After Paquin, \$110

The bow at one side and hanging down a bit places this coat as very charming and very new for spring. Graduating tucks, too, distinguish it with additional chic. Of gray, black or beige Kashmir fabric, with summer ermine collar. For women. At right.

Tiny Stripes and Fine Tailoring in Suits, \$85

Mannishly simple, of imported material in tan or gray novelty mixture, this suit bound in braid. The hip length jacket falls over a wrap-around skirt. For women. Fourth Floor, North.

BY BOB BECKER.

The latter part of March and the month of April are ideal times for fishing on the lawn. This sport may not catch fish [unless you "plant" a few in a tub and then cast for them] but it is an excellent way to practice both bait and fly rod casting and get your eye and wrist in trim before the fishing season opens.

and general all around improvements also is an excellent way to reduce a fishing fever. Rig up your tackle, select an open place free from trees, brush radio aerials or other obstructions that might catch your line of casting weight, pace off your distances ay out a barrel hoop, paper circle, or ther target and then go to it. quartet in a full hour's concert, New York, through W-G-N, 8:15 to 9:15. This by virtue of the quartet's distinction in the musical world and the artistic nature of the concert, will un-questionably be chronicled as one of

radio musical events.

Mozart's "Quartet in D minor" was given in full, followed by six other selections, familiar and unfamiliar. There was a wealth of contrast in itions, but the playing was always perfect. The same four men have been together for eighteen years. color of a string quartet.

This tone color is totally different, and distinctive. The viola is evidently the responsible factor. Its peculiar nbination with the cello may have something to do with it. But whatever the cause or causes, there are a close harmony and a musical re-finement in a string quartet that puts it in a realm by itself.

The peculiar closeness of tone no-ticed in the quartet afforded compari-son when the Edison Symphony orches-tra, KYW, 9:15, came on the air immediately following the London String quartet's program. ADVERTISE IN THE TRIBUNE

Lwo targets to shoot at

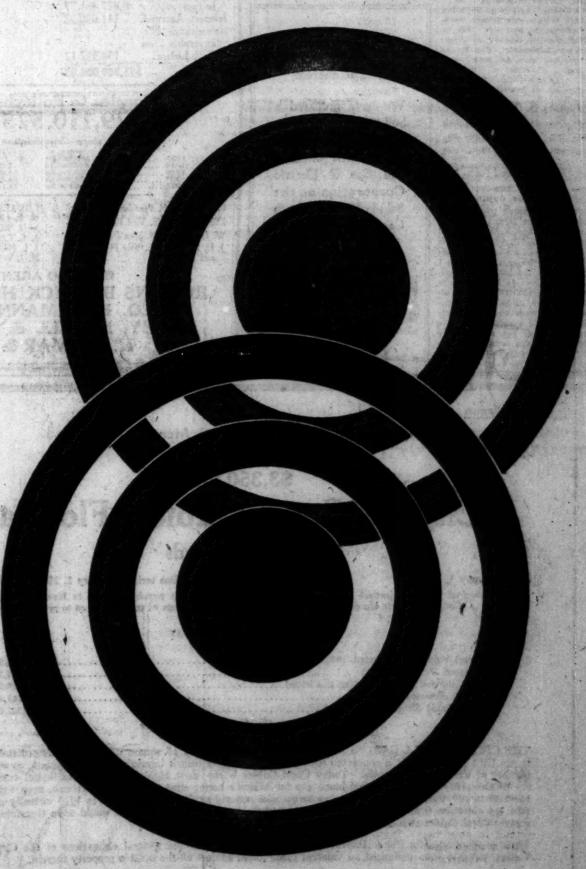

BOSTON has been labeled "difficult" by unsuccessful advertisers. Successful advertisers merely change the label to "different"! Boston is the country's fourth greatest market. Concentrated in an area with a thirty-mile radius are over two and a half million people. Many advertisers consider this great population as a unit. It isn't. Boston's population is divided into two groups—two targets, both of which must be hit.

Within both groups are to be found every condition and rank of Boston people - wealth and culture, bankers, lawyers, doctors, merchants, teachers, executives, salesmen, clerks and skilled and unskilled labor of all kinds. The difference, then, is not one of mass or class, but the result of a process of evolution that is as old as the city itself. dividing its people into two groups according to origin, tradition, custom and environment without regard to rank or station. To be successful in Business Boston the advertiser must be governed by the divided status of its people.

The Boston newspapers reflect this division of the population. Of the four major daily papers, three definitely appeal to one group. The advertiser can reach most of this group by using any one of the three newspapers.

Unless the advertising pages of the Herald-Traveler are used, the richest, most important and most responsive prospects in the Boston market are ignored. The Herald-Traveler circulation is not duplicated by any other Boston daily newspaper or combination of papers. The Herald-Traveler group represents the greatest per capita wealth and returns the larger proportion of income tax. Further evidence of the Herald-Traveler's indispensability to any national advertising planned to reach the Boston market, is the fact that the Herald-Traveler advertising columns have, for six years, led all other Boston newspapers in the volume of national advertising, including financial, automobile and publication advertising.

Our Chicago representatives are Boston born. Why not ask them to help you with your sales in Boston? They will be glad to co-operate at any time and without obligation.

THE CITY OF CORAL GABLES covers an area of approximately 15 square miles and is immediately adjacent to the City of Miami. It is connected with Miami by a rapid transit interurban electric system, as well as by a number of well paved highways. Today Coral Gables is the most highly restricted residential community in the Miami area, and is the logical home site for Miami's better class citizens. Its growth, even today, attests to these facts. Coral Gables in refusing to become annexed to the City of Miami in 1925 virtually promised to offer no objection if such annexation was attempted after five years' time. It would seem therefore that quite shortly Coral Gables should become annexed to the City of Miami.

These bonds, issued for Public Improvement purposes, are direct and general obligations of the City of Coral Gables, payable from unlimited ad valorem taxes levied against all the taxable property therein,

Ellis & Palmer, Albany, New York, have estimated the income of the building as follows:

Maximum Annual Interest Charges on this loan \$129,000

As an advance which may be applied as rent under its lease, Standard Oil Company of New York has agreed to pay \$150,000 towards the construction of this Building.

The annual income to be received under the Standard Oil Company of New York lease will be, in itself, substantially sufficient to pay all operating expenses on the space so leased, taxes other than federal income taxes, and interest on this loan.

Security: This issue will be secured, in the opinion of counsel, by a closed first mortgage on the land and building to be erected thereon, owned in fee. The property has been independently appraised as having a value, upon completion of the building, of \$3,275,000. A surety bond guaranteeing completion of the building will be furnished, and title insurance for the full amount of this loan will be carried payable to the Trustee. Adequate fire and liability insurance will also be carried payable to the Trustee.

Sinking Fund: The operation of a minimum sinking fund, payable to the Trustee, beginning October 1, 1928, through purchase in the open market or retirement by call should reduce this loan by maturity to an amount less than \$750,000, which amount is less than the present appraised value of the land alone. The Agreement will also contain provision for payments to sinking fund based on annual gross rental. This loss is ofered when, as and if issued and received by us and subject to the approval of counsel, Mesers. White & Case

Ten Year 51/2% Sinking Fund Gold Notes Dated March 1, 1927

Interest payable March 1 and September 1 in Boston and New York. Coupon Notes in interchangeable denominations \$1,000 and \$500, registerable as to principal only. Callable in whole or in part on 30 days' notice at 105 and interest on or before March 1, 1928, the premium thereafter decreasing ½ of 1% each 12 months of expired life of the notes up to and including March 1, 1936, and thereafter at face value. Interest payable without deduction for Federal Income Taxes up to 2%. Massachusetts Income Taxes on interest not exceeding 6% will be refunded upon application as provided in the Trust Indenture. The First National Bank of Boston, Trustee

BUSINESS: Warren Brothers Company is the largest road-building organization in the world. The Company was incorporated in 1900 to carry on a paving business in which the organizers had been engaged for periods dating back to 1882. The Company specializes in a paving construction of its own design, Warrenite-Bitulithic, which it has consistently improved by scientific research combined with wide practical experience. Warrenite-Bitulithic is protected by broad patents, the most important of which was issued in 1924. Warren Brothers Company operates the largest plant in the world devoted exclusively to the manufacture of bituminous paving

SECURITY: These notes are a direct obligation of the Company and constitute its sole funded debt. The Trust Indenture shall provide that the Company shall place no mortgage or other lien upon its property or any part thereof unless the notes at the time outstanding are secured equally with the obligations intended to be secured thereby, provided, however, that this restriction shall not apply to purchase money mortgages or to obligations of the Company without limit as the distriction. rities secured by obligations of any nation, state, municipality or governmental subdivision thereof, which obligations shall have been taken by the Company as payment upon contracts or in settlement thereof with any such governmental body or with any licensee or sub-contractor of the Company in the usual course of the business of the Company.

EARNINGS: The average net profits of Warren Brothers Company and its entirely owned subsidiaries, Warren Brothers Company of Massachusetts, Warren Brothers Company of Argentina and Warren Construction Company, for the five years ending December 31, 1926, before deducting interest, federal taxes and sinking fund provisions, were in excess of 5½ times the annual interest on this issue of \$2,500,000 ten-year 5½% sinking fund gold notes. The corresponding net profits for the year ending December 31, 1926, were in excess of 8 times the same interest.

ASSETS: The consolidated balance sheet of Warren Brothers Company and its entirely owned subsidiaries as of December 31, 1926, certified by Messrs. Price, Waterhouse & Co., adjusted to give effect to this financing without including any value for the good-will which the Company has been steadily building up or for the patents and license agreements from which it receives a substantial income, shows net assets applicable to these notes after all other liabilities and reserves of \$9,885,364, or equivalent to \$3,954 per \$1,000 note. Current assets were 3.6 times current liabilities and net current assets alone equaled \$4,952,064, or equivalent to \$1,980 per \$1,000 note. The market value of the stocks of the Company, which are junior to these notes, is in excess of \$11,000,000. in excess of \$11,000,000.

PURPOSE OF ISSUE: The proceeds of this issue will be used primarily to finance the Company's growing business in foreign countries. The Government of Cuba has recently awarded Warren Brothers Company a contract for the building of a national highway which is considered the largest paving contract ever awarded.

SINKING FUND: The Trust Indenture securing these notes shall provide for an annual sinking fund beginning March 1, 1930. The operation of this sinking fund will retire all but \$750,000 of the notes before maturity.

THE CHASE NATIONAL BANK OF THE CITY OF NEW YORK, AMERICAN TRUSTEE FOR NOTES DEUTSCHE BANK, BERLIN, GERMAN TRUSTEE FOR NOTES

The following information regarding the Bank of the East Prussian Landowners Association, the East Prussian Landowners Association and the Bank's Issue of Three-Year 6% Agricultural Mortgage Collateral Gold Notes, against which these Participation Certificates are to be issued, is summarized in part from a letter (copies of which should be obtained from the undersigned) dated March 3, 1927 from Max Schroeder and Albert Fischer, Managing Directors of the Bank and Walter Von Hippel, General Director of the Association.

HISTORY: The Bank of the East Prussian Landowners Association (Bank der Ostpreussischen Landschaft-hereinafter called the Bank) was established in 1869 by the East Prussian Landowners Association (Ostpreussische Landschaft-hereinafter called the Association) to perform the financial functions of the Association, primarily the distribution and service of its Land Mortgage Bonds. The Association owns all the present capital of the Bank, amounting to 4,000,000 Goldmarks (about \$950,000).

EAST PRUSSIAN LANDOWNERS ASSOCIATION was created by Royal Decree in 1788, for the purpose of providing capital for agricultural development in the Province of East Prussia. It is one of the oldest "Landschaft" (Agricultural Credit) organizations in Germany. All rural landowners in East Prussia owning lands valued at or above a certain minimum amount are required by law to affiliate with the Association. The Association has no share capital and is not operated for profit. Its operations are under the direct supervision of the Free State of Prussia.

By law of May 7, 1924, the Association is authorized to issue Land Mortgage Bonds (Pfan briefe) in terms of Goldmarks and secured by an equivalent amount of individual first mortgages on productive agricultural property. As of December 31, 1926, the Association had outstanding the equivalent of approximately \$51,638,000 Land Mortgage Bonds and \$6,376,000 other obligations, all secured by individual first mortgages.

PURPOSE: The proceeds of the Three-Year 6% Notes are to be used by the Bank solely for the purpose of granting the Association a Three-Year 6% Goldmark Loan equivalent in principal amount at the rate of 4.20 Goldmarks to the dollar, to the principal amount of this issue of dollar Notes. The loan to the Association will be made under the terms of a Goldmark Loan Agreement providing for the deposit with the Bank as security for the loan of Goldmark Land Mortgage Bonds of the Association, of a principal amount equivalent in Goldmarks to the aggregate principal amount of the Notes outstanding and bearing interest at the rate of at least 6%. The Association will use the proceeds of the Goldmark Loan to refund outstanding 8% Land Mortgage Bonds with 6% Land Mortgage Bonds.

SECURITY: These \$7,000,000 Three-Year 6% Agricultural Mortgage Collateral Gold Notes will constitute the direct and unconditional obligation of the Bank and will be secured by the assignment to the Trustees of all the Bank's rights under the Goldmark Loan Agreement with the Association and by pledge with the Trustees of the Goldmark Land Mortgage Bonds of the Association deposited with the Bank as security for the Goldmark Loan. Pending the deposit with the German Trustee of the Goldmark Land Mortgage Bonds, the net proceeds of the sale of the Notes will be deposited with the American Trustee as security for the Notes, to be withdrawn pro-rata as the Goldmark Land Mortgage Bonds are deposited in definitive form.

As stated above, the Land Mortgage Bonds are secured by an equivalent amount of individual first mortgages on productive agricultural property, to the extent of not exceeding 331/3% of the conservatively appraised value of properties which have buildings, equipment and live stock. These three items however are not included in the appraised value. Mortgages are granted only on revenue producing property. The Land Mortgage Bonds are further secured by law by a general and unconditional charge upon the assets of the Association; upon the properties (whether mortgaged or not) of the landowners affiliated with the Association, comprising approximately 2,450,000 acres; and upon approximately 1,250,000 acres of agricultural and forest land owned by the Prussian State Government a total of about 3,700,000 acres valued on a conservative basis at over \$450,000,000.

CREDIT: The Association has a record of almost a century and a half of continuous public service marked by conservative financial policies. Before the war the Land Mortgage Bonds of the Association were placed in Germany at coupon rates of 3%, 31/2% and 4% to yield approximately 31/8%.

The Land Mortgage Bonds of the Association constitute a legal investment in Germany for Widows, Orphans and Trustees funds.

Conversions of Goldmarks into U. S. Currency are made at the rate of 4.20 Goldmarks to the dollar. The Three-Year 6% Notes of the Bank of the East Prussian Landowners Association described above will be registered in the name of and will be payable to The Chase National Bank of the City of New York and will be deposited with and held by said Bank for the pro-rata benefit of the holders of these Participation Certificates.

We offer the above Participation Certificates, subject to receipt by us of the Three-Year 6% Agricultural Mortgage Collateral Notes of the Bank of the East Prussian Landowners Association, when, as and if issued, and subject to the approval of all proceedings in connection with the issuance of said Notes and these Participation Certificates by our counsel, Messrs. Rushmore, Bisbee & Stern, New York, and Dr. Ernst Oppenheimer, Berlin, as to all matters arising under German law. It is expected that delivery will be made on or about April 1, 1927, in the form of Interim Receipts or Temporary or Definitive Participation Certificates

Cars of Equal Price. When Cadillac reconditions a V-63 they build Straight 8, 1-36 sport, 4 pr snapplest car in city; new fini uaranteed; fully equipped. See nctive car priced at \$2,000, back into the car as many of the used miles as is possible. Skilled Cadillac mechanics schard Straight 8 1-36 roadster. Rumbl t: canary yellow finish like new; brillian former; anappy appearing; rebuilt; gua-ed. Come in and look it over; \$2,000 work with precision in accordance with our high standards and rigid

policy. In buying a V-63 from us you are not buying one which has been given a mere "lick and a promise," but a Cadillac car which has gone through three to five weeks' careful reconditioning.

AUTOMOBILES-GASOLINE.

Every car is painstakingly tested and inspected before it is ready to be placed in any of our five Showrooms. The Duco finish is renewed. New parts are used when necessary. New tires and full equipment are installed. And in evidence of our faith these cars carry our 90 day warranty.

This, plus Cadillac comfort, handling ease, and dependability, is why our Reconditioned V-63 Cadillacs are better values than any new car of equal price.

Inspect these cars today. There is a branch near you for your convenience:
